CALL FOR PROPOSALS

INFORMATION PACKET

SUBMISSIONS DUE JULY 25th

The background is a deep teal color with a textured, slightly grainy appearance. At the top left, there's a stylized illustration of a mountain peak in a lighter teal color. To its right, a green tree with detailed leaves is partially visible. In the bottom right corner, the head of a large, orange-brown fish with a prominent eye and scales is shown, swimming towards the left. The bottom left corner features a light beige, wavy shape representing a riverbank, with several small, light blue handprints scattered along it.

CONFERENCE STREAMS

Streams to Systems: Connecting Communities, Classrooms, and Conservation

This year's theme invites educators, leaders, and learners to think like a watershed—interconnected, dynamic, and flowing toward shared impact.

Proposals should align with one of the following strands, each representing a vital tributary feeding into the broader system of environmental education in Tennessee and beyond.

HEADWATERS

Expanding Access and Early Connections

CURRENTS OF LEARNING

Innovative Teaching and Curriculum

CONFLUENCES

Community and Cross-Sector Partnerships

WATERSHED LITERACY

Conservation and Real-World Issues

UNBLOCKING THE FLOW

Empowering People and Programs

DATA STREAMS

Research, Evaluation, and Citizen Science

HEADWATERS

Expanding Access and Early Connections

The source of all systems is access.

This strand focuses on the first encounters with environmental education and strategies to reach more learners, more equitably.

Topics may include:

- **REMOVING BARRIERS TO PARTICIPATION**
- **ENGAGING RURAL AND UNDERREPRESENTED COMMUNITIES**
- **BUILDING WELCOMING, INCLUSIVE LEARNING ENVIRONMENTS**
- **CULTURALLY RELEVANT AND PLACE-BASED PROGRAMMING**

CURRENTS OF LEARNING

Innovative Teaching and Curriculum

Education flows through classrooms and fieldwork alike. This strand features effective tools, methods, and models that energize environmental learning.

Topics may include:

- **STANDARDS-ALIGNED EE IN K–12**
- **OUTDOOR, PROJECT-BASED, AND EXPERIENTIAL LEARNING**
- **STEM AND INTERDISCIPLINARY INTEGRATION**
- **EDUCATIONAL TECHNOLOGY IN EE**

CONFLUENCES

Community and Cross-Sector Partnerships

Where waters meet, *strength* grows. This strand celebrates collaborative efforts that connect schools, nonprofits, agencies, and neighborhoods.

Topics may include:

- **SCHOOL-COMMUNITY PARTNERSHIPS**
- **YOUTH ENGAGEMENT AND LEADERSHIP**
- **COLLABORATIONS WITH MUNICIPALITIES, BUSINESSES, OR LAND MANAGERS**
- **REGIONAL AND CROSS-SECTOR INITIATIVES**

WATERSHED LITERACY

Conservation and Real-World Issues

This strand focuses on using environmental education to illuminate natural systems and equip learners to care for the places they live.

Topics may include:

- **WATERSHED, ECOSYSTEM, AND BIODIVERSITY EDUCATION**
- **LAND USE, AGRICULTURE, AND RESOURCE STEWARDSHIP**
- **TEACHING ABOUT WEATHER PATTERNS AND ENVIRONMENTAL CHANGE**
- **NATURE-BASED PROBLEM SOLVING AND STEWARDSHIP ACTIONS**

UNBLOCKING THE FLOW

Empowering People and Programs

Like a free-flowing stream, thriving environmental education depends on removing barriers and reinforcing the systems that support it. This strand focuses on empowering individuals and strengthening the structures that carry EE forward. Topics may include:

- **WATERSHED, ECOSYSTEM, AND BIODIVERSITY EDUCATION**
- **LAND USE, AGRICULTURE, AND RESOURCE STEWARDSHIP**
- **TEACHING ABOUT WEATHER PATTERNS AND ENVIRONMENTAL CHANGE**
- **NATURE-BASED PROBLEM SOLVING AND STEWARDSHIP ACTIONS**

DATA STREAMS

Research, Evaluation, and Citizen Science

Knowledge feeds the system. This strand highlights the role of research and inquiry in shaping, supporting, and expanding environmental education.

Topics may include:

- **APPLIED RESEARCH AND PROGRAM EVALUATION**
- **CITIZEN AND COMMUNITY SCIENCE**
- **UNIVERSITY COLLABORATIONS**
- **FIELD-BASED INVESTIGATIONS AND DATA LITERACY**
